

## **Final exam**

### **Atmospheric and Oceanic Fluid Dynamics I**

Spring 2022

Submission date: June 18, 2022

Choose a topic you are interested in in the field of oceanic and atmospheric fluid dynamics, and write a paper following these guidelines:

- 1) It can be either a research article based on your own research results or a review article, but must be related to oceanic or atmospheric fluid dynamics. Equations should be included.
- 2) Text: ~ 3000 words in Chinese or English (not including words in figure captions, table titles and the reference list).
- 3) It should include Abstract, Introduction, Data and Methods, Results, Discussion and Summary. Necessary figures and/or tables should be provided. Citations and references should also be provided (no less than 5 literatures).
- 4) Formatting  
Font: 宋体 (中文) or Times New Roman  
Line spacing: 1.5  
Use indent for the first sentence of each paragraph.  
Section headings: 1 Introduction (1.1, 1.2, 1.3, ...), 2 Data and Methods, 3 Results, ....

Note: You should not copy or directly translate texts from the references.
